

Summer Tutoring

The summer months provide an opportunity for students to focus on particular areas of extra challenge, without the stress and fatigue of daily schoolwork. This is also a time when lack of practice sometimes makes the transition back to class in the Fall more difficult.

With this in mind, **private tutoring** will be offered **with Miss Howell** from **June 4-August 17, 2018**. The content of the **individualized one-hour sessions** will be tailored to the particular needs of the student in areas of **Language Arts at all grade levels**, including phonetic reading and spelling, reading comprehension, creative writing, grammar, and language mechanics. **Elementary math instruction** in the four basic operations, including counting, place value, borrowing, carrying, counting money, telling time, and fact mastery drills will also be available.

Both morning and afternoon times will be available for **twice-weekly sessions on Mondays and Wednesdays**, and schedules can be adjusted to accommodate vacations. (For students enrolled in Summer Camp, those paying for tutoring will have their sessions during their time on campus.) **Cost** will be **\$20 per hour**, payable directly to Miss Howell and due in advance on Wednesday for the following week. Please contact her to reserve an opening for your child, or to obtain further information. Miss Howell can be reached at **(740) 262-2335**, or by email at darladhowell@gmail.com .

A number of our students, as well as public school students, have benefited greatly from tutoring with Miss Howell. If your child needs additional assistance, I highly recommend her.

Mr. Haithcock
